SUMMARY

Management Information Systems student at Bogazici University with a background in QA testing, data analysis, and cybersecurity. A proactive learner who balances technical skills with a high-pressure work ethic gained from professional kitchen environments and team-based projects. Focused on practical problem-solving and adaptable to international work environments.

EDUCATION

Feb 2026 – June 2026	Università degli Studi di Firenze <i>Erasmus+ Mobility Program</i>	Florence, Italy
2022 – Present	Bogazici University <i>B.Sc. in Management Information Systems</i>	Istanbul, Turkey GPA: 3.3/4.0
2018 – 2022	Private Bilgi College <i>Full Merit Scholarship</i>	Corum, Turkey GPA: 99.8/100

WORK EXPERIENCE

Footboss Fantasy Football <i>QA Intern</i>	Sep 2025 – Jan 2026 <i>Remote</i>
--	--------------------------------------

- Tested iOS/mobile apps for functional and UI/UX issues; identified and reported bugs via ClickUp.
- Collaborated with developers to resolve defects and improve app stability before releases.

BUSİBER (Bogazici University) <i>Cybersecurity Intern</i>	July 2025 – Aug 2025 <i>Istanbul, Turkey</i>
---	---

- Conducted network scanning and penetration tests on Linux hosts using Nmap, Metasploit, and Burp Suite.
- Identified vulnerabilities in web applications and performed manual exploitation to assess system impact.
- Executed OSINT research using Google Dorks to map exposed digital assets.

Bogazici University <i>Student Assistant (MIS 251)</i>	Sep 2025 – Jan 2026 <i>Istanbul, Turkey</i>
--	--

- Assisted faculty in MIS 251 course operations.

International Educations of Turkey (IEFT) <i>Translator</i>	Project-based <i>Istanbul, Turkey</i>
---	--

- Provided English-Turkish translation for international exhibitors and visitors during education fairs.

Kunduz <i>Operations Team Member</i>	June 2023 – May 2024 <i>Istanbul, Turkey</i>
--	---

- Managed customer inquiries via CRM, improving response times using standardized templates.

SKILLS & PROJECTS

- **Cybersecurity:** Performed penetration tests on internal networks; familiar with Nmap, Metasploit, and manual vulnerability assessment.
- **Software Testing & QA:** Experienced in identifying functional/UI issues and bug tracking (ClickUp) during mobile app development lifecycles.
- **Data & Visualization:** Data analysis using Python and SPSS; automated reporting and visualization for business insights.
- **Cloud & DevOps:** Managed instances on AWS/Azure; basic container orchestration with Docker and custom plugin development.
